	Auto Electrical Snail Horn	Product Specification Intro
		DLD161 Series
Description		
<p>CHINT® Auto Electrical Snail Horn is Electrical Horn, use the PCB and electronic unit to realize the function. By using the MOSFET instead of the traditional contact to increase the life endurance and ensure higher quality of sound.</p> <p>1> Good sound and SPL in various environment conditions (High&low temperature plateau area) due to the new technique of frequency control principle.</p> <p>2> More than 500,000 operations of the life endurance due to the MOSFET, 5 times more than the mechanical type Elec-Horn, and be able to sound continually more than 10 mins;</p> <p>3> IP67;</p> <p>Supply for: Mazda, ISUZU, GM. etc..</p>		
Electrical Specification	Application:	
Rated Working Voltage: 12V		
Rated Current: 5A		
Sharp Tone: 510±25Hz		
Deep Tone: 420±25Hz		
Sound Pressure Level (SPL): 105-118dB(A)		
Diameter: φ80mm		
Life Endurance: 500,000 cycles		
IP67
