

Truck Manual Small Size Manual Battery Switch

CHINT® Automotive is an Automotive Battery Switch manufacturer and supplier in China. We have been specialized in automotive Battery Switch over twenty years. CHINT® Truck Manual Small Size Manual Battery Switch is the major product to offer a good performance for customer space management. Our products supplies for almost all brand of Chinese

truck, Daimler & John Deere with OEM quality and competitive price. We look forward to becoming your long-term partner in China.

	Truck Manual Small Size Manual Battery Switch	Product Specification Intro
		JK809 Series
Description		
<p>CHINT® Truck Manual Small Size Manual Battery Switch has small size to offer a good performance for customer space management.</p> <p>It has removable/fix handle, with small size of switch and customized proof for water and dust. Customized proof offer a flexible resistance and price to meets different environmental requirement.</p> <p>A special design of the shape of un-vertical bolt to bring a good performance of contact cleaning in each time of use.</p> <p>Lab test: Basic spec test, maximum continuous current test, Water resistance test, dust resistance test, Vibration resistance, Resistance to combustibles, hydrocarbons and fluids, salt spray test, cold test, dry heat test, rapid temperature changes test, Resistance to slow temperature cycles, Life endurance test, large current test.</p>		
Electrical Specification		Application:
Rated Working Voltage: 12V or 24V		
Rated Current: 100A~250A		
Working Environmental Temperature: -40℃~+60℃		
Max Instantaneous Current: 1500A/30s, 2000A/3s		
Proof: IP67/9k		
Anti-corrosion: 96h		
Life Endurance: 5000 cycles (30s ON, 30s OFF)		

Standard: IEC-EN60529-1992, DIN-40050-9-1993, Q/ZTQ B202-2017

Ordering Informaton:

Model	Elec-Spec.				Feature	
	Rated Voltage	Rated Current	Max Current		Proof	Other
JK809	24V	200A	1500A/30s	2000A/5s	IP67/9K	Basic Type, Removable Handle
JK809A	24V	200A	1500A/30s	2000A/5s	IP67/9K	Fixed Handle
JK803A	24V	200A	1500A/5s		IP65	Fixed handle with the same mounting plate as JK802
JK803	24V	200A	1500A/5s		IP65	Fixed handle with Smaller Mounting plate
JK802	24V	100A	1500A/3s		IP65	Removable Handle with a Cap, basic Type of this plastic switch,
JK802-B	24V	250A	1500A/5s		IP65	Removable Handle with a Cap customized, basic Type of this plastic switch,
JK802-C	24V	250A	1500A/5s		IP65	Removable Handle with a Cap and Mounting Plate customized
JK808	24V	100A	500A/30s		IP4X	Basic Type, Removable Handle
JK808A	24V	100A	500A/30s		IP43	with Gasket, Removable Handle
